

If this is true, why then is man often so ugly in the way he treats his fellow man? Political wars, religious wars, racism, colonialism, pollution, corruption, we could go on, but it is not a pretty picture. How do we explain the vast difference between what The Bible says man was intended to be and what he is? That's simple; the answer is "Sin." Salvation is God's plan to re-connect man to himself (1Pet. 3:18). Jesus was the only possible way man could be re-united with God. He is Lord, He is Life, He is the link.

Did you know something was missing, but just didn't know what it was? Have you wondered if there was a 'missing link?' The good news is that there is. But perhaps you have been looking too low. Jesus died on the cross for you sins and if you will receive him, He will receive you. Is something missing in your life? Perhaps it is not a 'something' after all, perhaps it is a 'someone.' Jesus. (Jn. 1:10-13).

Why not look inside God's Book the Bible? In it you will find out what it says about the origin of life and how you were wonderfully made by God. Life is no accident, but without God it is a wreck.

The 1995 official position statement of the American National Association of Biology Teachers (NABT) accurately states the general understanding of major science organizations and educators: "The diversity of life on earth is the outcome of evolution: an unsupervised, impersonal, unpredictable and natural process of temporal descent with genetic modification that is affected by natural selection, chance, historical contingencies and changing environments." Absolute Nonsense! Don't let these eggheads make a monkey out of you.

The Bible states that "all things were made by [God] and for [God]" (Col. 1:16). The Bible tells us how to get the most out of life (Jn. 10:10). It tells how sin ruined man's relationship with God and how it can be fixed (Rom. 3:23; 6:23). It tells the story of God's love and how He sent the Lord Jesus to be your Savior (Jn. 3:16). It tells how Jesus died on the cross to pay for your sins and give you the power of a triumphant and endless life.

"EVOLUTION" Update

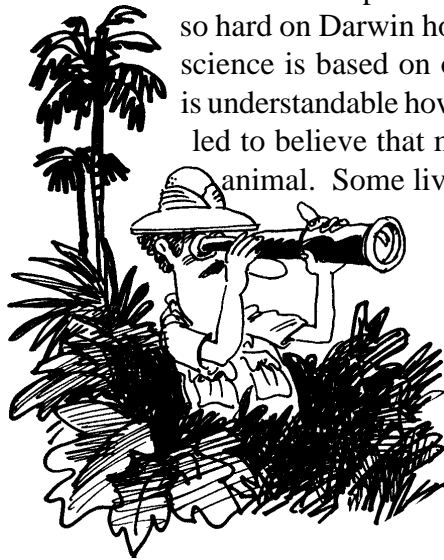

MISSING LINK

IS STILL
MISSING

Looking for the missing link.

The Abominable Snowman, Big Foot, and Sasquatch, are names some have given the missing link. Scientists have been looking for the missing link ever since Darwin wrote his theory of evolution. The theory: *The Origin of Species* is one of the books that has changed the world. Unfortunately however, this change was not for the better. Convincing someone that he is an animal is not in his or the world's best interests. Perhaps we should not be so hard on Darwin however. Since science is based on observation, it is understandable how one might be led to believe that man is only an animal. Some live very low.

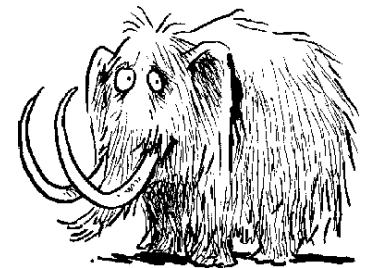

Just how life leaped from being a Protozoa (Greek word for *first-animal*) to the first person is what evolution is all about. Supposedly man evolved from the monkey. Just how these tree climbing primates became men is the puzzle. The answer we are told is the "missing link." This missing link is half-way between a chimp and a chap. If you believe this, I'm afraid, you are a chump.

There is a missing link in the life chain, but people are looking at the wrong end of the chain. Science is looking down when it should be looking up. It is not found in the slime, but rather in the sublime. The missing link is not one that connects Adam to the Ape, but one that connects Adam to God. The link is not some 'Adominable Snowman.' By the way, 'Abominable' means something vile, disgusting, unpleasant or loathsome. Man was made of better stuff than that. Yes man was made from dust, but he was made by Deity.

The Bible says we were not made like, or to be like animals, but we were made to be like God.

"Let us make man in our image, after our own likeness: and let them have dominion over the fish of the sea, and over the fowl of the air, and over the cattle, and over all the earth, and over every creeping thing that creepeth upon the earth. So God created man in his own image" (Gen. 1:26-27).

Man was not made to be "a little higher than the animals" but rather just a "a little lower than the angels"(Ps. 8:5).

Schools still teach evolution as a fact of life despite failure to find the missing link. Science is leaving no rock unturned in its continuing search.
